Women's Institute Regular Meeting

At the regular monthly meeting of the Champion Women's Institute which was held at the home of Mrs. Alexander on Tuesday, February 12th, Mrs. Milfin presided. The Institute donated the money to the Community Hall with which to buy window shades and appointed a committee to help with arrangements for the banquet. Mrs. Harper, Mrs. McDougall and Mrs. G. F. Smith form this committee.

After the regular business was disposed of, Mrs. G. F. Smith gave a splendid review of a book "The Window" which all enjoyed very much.

Mrs. Smith then announced that at the next meeting, to be held at her home, when she herself takes the subject of "Canadian Industries." She will give cash prizes as follows: For Devil's Food cake made with Purity flour, Parker House rolls made from Purity flour with Fleischman's yeast and Chocolate fudge made from Raymond sugar. Mrs. Smith then wishes to sell these exhibits. The roll call will be "My Favorite Canadian Product."

After the meeting adjourned a most delightful Valentine lunch, prepared by Mrs. Wiso, was served by her with Mrs. Ulrich assisting.

The new programmes, beautifully printed and smartly bound, were distributed but owing to an unusual pressure of business the printers were unable to have the constitutions ready for this meeting.

Everyone watch for another announcement to those prizes.

A Valentine party was held in the church on Tuesday, given by Miss Moyle for her club. Games, music and a delicious lunch were features, while toasted marshmallows, ice cream, etc., afforded a delightful dessert. Needless to say the event was highly enjoyable.

B. M. Roberts joins the staff of the Baslin Motor Co. at Lethbridge this week. He will be generally missed here but it is hoped he will be close enough to make a visit to Champion frequently.

A delightful dinner and bridge party was held at the home of Mr. and Mrs. W. C. Hoskins on Friday night. The prize winners were Mrs. McIntyre and Mr. Friesen. Consolation Mrs. Friesen and H. Jopling. Mrs. Hoskins also held a bridge party on Monday, the winners were Miss Smithson and S. Wentzke, consolation S. Jopling and Miss Cameron.

Bryde Robinson, who has been in charge of the Alberta Pacific elevator at Carmangay has been transferred to Jefferson Siding, and before leaving for that point paid a visit to friends here last week.

A farewell party was held at the home of Mr. and Mrs. Mansey Matlock in honor of Mr. and Mrs. Otto Hagg who are leaving that part of the district and moving to the farm of Fred Blachly. The neighbors presented them with a lovely silver tea set.

K. R. McLean R.O. of Anderson & McLean, Sight Specialists, 308 8th Ave. West, Calgary, will make his monthly visit to Champion Thursday, Feb. 28th. At the Drug Store.

Local Bonspiel In Progress

The local bonspiel has been the big feature in sporting circles this week, twenty-seven rinks participating. At time of going to press the fours have been reached in the first two events and the consolation is under way. There has been a good attendance from the opening on Tuesday and some splendid games have been seen by the spectators.

Village Election Quiet Affair

George A. Orr headed the poll at Champion on Wednesday when the voting for a councillor for a three year term took place. There were three contestants, Geo. L. Dupue, Horace E. Gill and the elected candidate. The vote stood Orr 16, Gill 13, Dupue 7. There was only a small turnout of ratepayers, only about one-third of the vote being polled. H. E. Gill was the retiring councillor.

Alston U. F. A. Holds Meeting

A very pleasant social evening was spent at the regular meeting of the Alston U. F. A. on Tuesday, Feb. 12th. All business was tabled until the next meeting except the report of the recent U. F. A. convention, given by W. M. Isaacson, for which he was given a very hearty vote of thanks. Refreshments arranged for by Mr. and Mrs. Louis Miller, were enjoyed by all, bringing to a close a very successful social gathering. The U. F. A. decided to give a dance in the Alston community hall on Wednesday, Feb. 20th.

SELLAND-SMITH

The marriage was quietly solemnized on Saturday, Feb. 9, at 6.30 o'clock when Edith Denison Smith, daughter of Mr. and Mrs. J. W. Denison of Winnifred, became the bride of Mr. Edwin Selland, of Champion. The ceremony was performed in the presence of the immediate relatives of the bride and groom, and the lines of the marriage service were read by Rev. Dr. J. W. Melvin, M. A. The happy couple will make their home at Champion.—Lethbridge Herald.

Mr. J. F. Trevelthick left on Thursday evening of last week for the Swedish Hospital at Seattle where he will undergo treatment. Fred's many friends will wish him a complete recovery.—Vulcan Advocate.

We wish to thank the Champion Elks, Champion Royal Purple, Women's Institute, Ladies' Aid, Mr. and Mrs. Higgins and Mr. and Mrs. Hoskins for the lovely flowers sent during Mrs. Watts' illness. Mr. and Mrs. F. M. Watts.

The Valentine tea given by the Forewomen's Group of the O. G. I. T. was well attended. The church was nicely decorated and the waitresses at the tables were distinctively dressed. The results were quite satisfactory from financial result, some \$20 being taken in.

E. Fisher wishes to thank the P. T. A. and friends for the flowers sent during his recent illness.

NOTES AND COMMENT.

The trustees convention held in Lethbridge failed to appreciate the explanation of the proposed new school legislation presented by Hon. Foran Baker, Minister of Education. The big objection to the new proposals is that of centralization. Every government thinks it can handle local business much better than local people, but experience has proven to the local elector that the government usually gets much less satisfactory results than the people on the ground. It is doubtful if any district in the country would appreciate the selection of teachers by an outside board, and the wish for trustees' jobs under the circumstances would be noticeable by its absence.

Prob. Ottowall, of the University of Alberta, is out for the establishment of high schools so that every rural district will be able to keep its children at home. This would be very nice for everyone but the ratepayers who would find footing the bill a serious if not impossible proposition. Education is an absolute necessity, but those who brood on the matter continually would lead the people into expenditure beyond their means in short order.

This year's provincial budget is meeting with considerable criticism. It is pointed out that while only one increase in taxation is made, the raising of gasoline used in travelling on the roads from three to five cents, the fact that the province has been prosperous, with an increasing population, with revenues increasing in every direction, while the revenue from liquor is an enormous addition to revenues not available to previous governments, there has been no cessation in reaching out for more income from taxes on the part of the former government. It has been hoped that the sale of the northern railway lines would lead to a gradual lowering of taxes, but this does not seem to be the case. The provincial debt, has risen from \$57,463,075 to \$87,711,931 since the present government took office, indicating that the limit in increased expenditure will be reached before a great length of time.

NEWS NOTES

Farmers throughout the province are again being advised by the Provincial Department of Agriculture to make the necessary provisions for the supply of seed oats which will be required for their 1929 crop. The germinating quality of oats in a number of districts has been found to be somewhat seriously affected by frost and in some cases this grain has been rendered quite unfit for seeding purposes. It is pointed out, however, that quantities of good seed oats are available, particularly in the Peace River

country, and arrangements are being made by many of the elevator companies to meet the requirements of farmers whose oats are unsuitable. Information as to the sources of a supply of good seed may be secured from the office of Field Crops Commissioner W. J. Stephen.

A comprehensive program has been drawn up for the short course for weed inspectors which will be held under the direction of the Alberta Department of Agriculture at the University of Alberta, February 25 to 29. It is anticipated that a large number of candidates for positions as weed inspectors will attend this course during which lectures and demonstrations will be given by a number of authorities on the various branches of agricultural work.

Indicating the satisfactory financial position of the Province, an estimated surplus of \$45,176 for the fiscal year 1928-30 was announced by Hon. R. G. Reid, Provincial Treasurer, in presenting the budget to the Legislature. Expenditures for the period are estimated at \$15,005,967 and revenues from all sources is placed at \$15,111,083. The net bonded debt of the province is now \$87,741,931. Only one increase in taxation is proposed for the coming year, a raising of the tax on gasoline from 3 to 5 cents per gallon, and of this a rebate of 1 cent per gallon will be made on gasoline used for industrial or agricultural purposes. It is announced that greater expenditures will be made in a number of the essential public services of the Government this year than at any time in the past.

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million houses are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved, or diarrhea checked, or a vegetable product, a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use in emergencies for every day ailments. Any hour of the day or night that Baby becomes fretful or restless, Castoria was never more popular with mothers than it is today. Every drugist has it.

WATERBURY'S CASTORIA

W. N. U. 1722

Sets Fractured Arm

By Radio Instructions

Operator in Arctic Gets Medical Advice from Ottawa

Receiving medical instructions flashed 1700 miles into the Arctic by wireless, and setting a fractured arm, was the accomplishment of G. Hudson, radio operator at Hope's Advance, in the Hudson Strait. The story is told in a series of cryptic messages between Hudson, at the range-finding station in the north and the short-wave station of the Department of Marine at Ottawa.

Preceding his first message by "this is Medicine," Hudson said that if H. Hall, a fur trader, suffering from an elbow injury, had succeeded in reaching Hope's Advance from Dinawash Bay by dog sled, first aid had been supplied, and he asked that a diagnosis and instructions for treatment be rushed back.

Within 50 minutes P. Woodrow of the Trail Radio Station had obtained the required help from Dr. J. H. Hagarty of the Department of Health. In the lonely station in the north the operator succeeded in landing a consultation and setting the arm's splints. His latest message indicated that his patient was progressing satisfactorily.

Does Not Always

Require Intelligence

Astonishing Feats in Mathematics Accomplished by Ignorant Persons

The gift of computation does not according to scientists, of necessity indicate a high degree of intelligence. A famous example, writes "Engineering," is that of Tom Fuller, a Negro slave born in Virginia, who could multiply four figures by four figures in his head as rapidly as a skilled operator could perform the feat with a machine, was merely an imperfectly educated peasant from Piedmont. He could also give the product of still larger numbers, but the advantage lay with the machine. Some eminent mathematicians have, of course, also shown as computers, and Euler must have had marvellous powers of what Hilder called "registration," since he was able to pursue his mathematical researches after the loss of his right

THINNESS

Over-thinness is detrimental to a child's progress in growth and health.

Scott's Emulsion

of vitamin-rich cod-liver oil is a body-building food and tonic that overcomes thinness and helps build up a sturdy body.

Scott & Bowler, Toronto, Ont. 25-0

Preparing For Air Service

Aeroplanes Are To Be Built In South African Jungle

Jump aeroplanes are being built in Africa in preparation for the air service from Cairo to Johannesburg. Thousands of trees have had to be felled and their roots dug up to provide landing spaces. Ant-hills have been, in many places, removed by hand, as no other means were available. Some of them were over 25 feet in height. Experimental flights are to be made next summer as a preliminary to the regular service. The whole journey of 5,000 miles will take five to six days instead of two months by existing means of transport.

Mothers Warned Of Colds That Follow the Flu

Attack Weakened System and Pave Way For Serious Case of Influenza

BEST TREATED EXTERNALLY

Physicians advise that the chief danger in this epidemic is after influenza. Then, more than ever, cold attacks and the grippe are a lead to bronchitis, pneumonia, or a second and more severe case of flu. This is especially true of children. Flu nearly always leaves the throat inflamed, and the danger should, therefore, be avoided, as it so often further disturbs the digestion and impairs recovery. But if a fresh cold comes, don't let that cold keep it overnight. Rub Vicks on throat and chest at night. As it is applied externally, it can be used freely even on the youngest child, with no fear of irritating delicate stomach.

Vicks acts two ways at once (both absorbed and inhaled) to check the cold and avoid serious complications. And, of course, it is just as good for adults.

Four European Tours

C.N.E. Complete Arrangements For Personally Conducted Trips

This Summer

Pennies are being saved, and History and French are being brunched up by scores of Western Canadians who are looking forward to a tour of Europe this coming summer. Early as it is in the season, the Canadian National Railways have already announced the completion of arrangements for their four annual personally conducted European tours. The summer, "Adriatic," will leave Montreal on July 5, and from the word "Go!" it will be high holiday for the school-teachers and other busy people who are on the move. Motor jaunts through England and Scotland will take in places names make the imagination quiver—Melrose Abbey, Holyrood, Abbotsford, Warwick Kenilworth, Stratford-on-Avon, Oxford, Hampton Court, Stoke Poges—there will be a steamer trip on Loch Lomond, a visit to the Trossachs, and then in Glasgow, Edinburgh and London. Then there will be a long stay in Paris and a journey to Versailles and to the battlefields.

Those who stay in Europe longer will visit Brussels, and Cologne, and Switzerland, and the travellers with even greater leisure will have the joy of going down into the Adriatic, Venice, Florence, Rome, Genoa, and to Nice and Monte Carlo.

The first return steamer, the "Aurora," will depart from Southampton on August 3; the second, the "Aurora," from Cherbourg, on August 10; and the third, the "Aurora," from Cherbourg, on August 24.

The Many-Purpose Oil. —Both in the house and double there are scores of uses for Dr. Thomas' Eucalyptic Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and neuralgia, sore throat, and chest. Horses are liable very largely to similar ailments and mishaps as a rule, and the oil is equally amenable to the healing influence of this use. The oil, which has made thousands of firm friends during the past fifty years.

Transforming Palestine A powerhouse is being erected on the River Jordan a few miles below the Sea of Galilee. The river drops 2,000 feet in 104 miles. Automobiles, electric lighting and steam railway trains are working a transformation in Palestine.

SUNDAY SCHOOL LESSON

FEBRUARY 17

PRAYER

Golden Text: "If ye abide in Me, and My words abide in you, ask whatsoever ye will, and it shall be done unto you."—John 15:7.

Lesson: Genesis 12:3-33; Exodus 22:21, 22; Nehemiah 1:1-11; Luke 6:10; Matthew 6:1-13; Luke 11:1-14; John 17:1-26; 1 Thessalonians 5:17; 1 John 3:14-15.

Devotional Reading: Psalm 121:1-8.

Explanations and Comments

Prayer Should Be Sincere, Mt. 6:8.—And when ye pray, ye shall not be as the hypocrites; for they love to stand and pray in the synagogues and in the corners of the streets, that they may be seen of men. It was the appearance of righteousness that the hypocrites coveted, not righteousness itself.

"To be seen of men is, after all, one of the most influential incentives to human conduct. Some people go into reckless extravagance in order to be seen of men as rich. The average person would rather be seen to have certain qualities than actually to possess them."—H. S. Brewster.

"Verily I say unto you, 'They have received their reward,' and Jesus in regard to the hypocrites. The Greek word translated 'received' means 'received in full,' and is the one which the Lord used to describe the reward they have been seen of men, and this was what they desired, they have no claim whatsoever to any further reward."

"Nor will he to those lips attest. Whose prayers are not sincere."—John Bunyan.

But thou, when thou prayest, enter into thine inner chamber, and have thy door shut, and pray to thy Father, who is in secret. The inner chamber with closed door stands for any place where we are alone with God. For Nathaniel it was under the fig tree, for Peter, it was in the house, Jesus himself chose the mountain-side, and the Father and His communion with His Father. When you pray shut out the world and shut yourself in with God. "Dear Father, we are told, only when the atmosphere is still, and the dew of prayers will fall abundantly on our souls only when we are at leisure." Jesus is not disparaging prayer (which He elsewhere commends), but He is emphasizing the need of sincerity which private prayer affords.

General William Booth started the Salvation Army standing on a soap box outside a saloon in the East End of London.

A Remedy For Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, consulting a doctor. Dr. Thomas' Eucalyptic Oil offers a simple remedy. A few drops upon a piece of cotton, the medicated cotton and placed in the ear will do much in relieving pain.

Badness Was Good

Four million miles of flying were recently completed by the cross channel fleet of the Imperial Airways, since 1924 the company's planes carried more than 97,000 passengers and 3,000 tons of freight between London and the continent of Europe.

Once when mother spoke of reducing the meat expenses.

Livestock Industry Prospers

The livestock industry of Alberta was responsible for a revenue of \$7,775,227 in 1925, according to D. A. McKenzie, Dominion markets representative. The livestock industry is enjoying a measure of prosperity which should encourage those engaged in this branch of agriculture to face the future with confidence, he stated.

FOR MOTHERS OF YOUNG CHILDREN

Mothers are quick to praise anything which brings health and comfort to their little ones—any medicine that will make the baby well and keep him well will always receive hearty recommendation from the mother. That is why Baby's Own Tablets are so popular. Thousands of mothers throughout the country, not only use them for their own little ones but are always delighted to be able to recommend them to other mothers. "Thousands of mothers have proved Baby's Own Tablets to be without an equal in relieving their little ones of any of the many minor ailments which arise out of a derangement of the stomach and bowels. Baby's Own Tablets are the ideal laxative—easy to take, thorough in action. They banish constipation and indigestion; break up colds and simple fevers; expel worms and make the teething period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

NEW LEGISLATION ANNOUNCED IS NOT EXTENSIVE

Ottawa, Ont.—The speech from the throne which His Excellency the Governor-General opened Parliament, consists largely of a review of the activities and accomplishments of the Government since the close of the last parliamentary session.

New legislation announced is not extensive. Amendments to the Dominion Elections Act, to the Companies Act, the Fisheries Act, the Narcotic Drug Act, and the act respecting technical education are pieces of new legislation to be forecast.

The speech also states that Parliament will be given an opportunity to approve the multilateral treaty for the redemption of war, as well as the treaty providing for the protection of the scenic beauties of Niagara. Amendments to the Railway Act, which will grant to the railway companies powers of investigation of affairs in relation to subsidiary concerns and with respect to the issue of capital stock will be introduced.

One of the most important announcements connected with the speech is that legislation to provide for a general pensions scheme for the benefit of Canadian National employees will be brought down.

The speech expresses thanks/fulness for the recovery of His Majesty, refers to the "unprecedented prosperity" of the Dominion, draws particular attention to the development of the mining industry, and suggests further legislation to implement recommendations of the Fisheries Commission. It states that plans are in progress for construction of the national research laboratories.

Reference is made to immigration agreements which have been concluded. Announcement of the introduction of a further branch line program by the Canadian National Railways is also contained in the speech, and it is estimated that authority will be asked for the acquisition of certain railways in both Eastern and Western Canada as feeders of the government-owned system.

Better Relations Looked For

Balkan States Making Arrangements To Open Frontier

Sofia, Bulgaria.—After years of extreme tension and recurring frontier disputes, Bulgaria and Yugoslavia seem at last on the threshold of better relations.

The frontier, which has been closed for a year and a half, a situation which gave rise to bitter feelings in Bulgaria, is to be opened. This was brought to M. Dreff, foreign minister here. A mixed commission will meet at Sofia to work out details of the frontier agreement. A formal commercial treaty between the two governments is expected soon to better their relations.

Commission Now In Europe

London, England.—The Canadian broadcasting commission under the chairmanship of Sir John Aird, president of the Canadian Bank of Commerce, left for the continent February 7. It is understood the members have been favorably impressed by the British organization which yields a revenue of about \$5,000,000 yearly under government supervision, divided between the government and the corporation.

Silver Hauls Shipped

Halifax.—Included in the cargo taken aboard the Cunard liner "Aurania," which sailed for Plymouth and London, were 240 bars of silver, valued at £100,000, and 80 parcels of clothing for the miners' relief fund of the Lord Mayor of London, the first shipment of this kind to go forward from Halifax.

King Signs Documents

London, England.—King George for the first time since appointment of councillors of state on December 4, has been able to sign several documents. It was officials, that His Majesty signed two state papers appointing Justice Tomlin to be Lord Appeal in Ordinary and member of the privy council.

Killed During Formation Flight

Pensacola, Fla.—Brannell P. Hestrich, 24, and Arthur Brink, 21, attached to the naval flying squadron here, were killed when their aeroplanes crashed in mid-air during a formation flight.

W. N. U. 1772

Seeking Right To Control Property

Shareholders of Grand Trunk Road Lodge Petition With Government

Ottawa, Ont.—The shareholders of the Grand Trunk Road are seeking the recovery of their right to control the property, now an integral part of the National Highway system, or fair compensation for their shares.

To this end they have lodged a petition of right with the government at Ottawa, claiming a fiat to sue the Dominion of Canada for the restoration of their property.

The par value of the shares held by the shareholders amounts to about \$150,000,000, and presumably the alternatives before the government, if the law suit was successful, would be either to pay these shareholders \$150,000,000 or to surrender the Grand Trunk lines.

At the moment none of the ministers or deputy ministers concerned in this matter will discuss it.

Not Delaying Treaty

Suggestion That Canada Is Holding Up Arbitration Pact Is Denied

London, England.—The suggestion that Canada is delaying the arbitration treaty between Britain and the United States, was stated in authoritative quarters here to be groundless.

The reason for the delay is that Britain and the United States are anxious to get the Kellogg pact, in which they have been concentrating for some time, out of the way first. The completion of the arbitration treaty is expected before long.

Observations were received from Canada, France, and the United States, and other Dominions have also sent their views.

It is admitted that the question of settling up the arbitration machinery has been a matter of some discussion, but no great difficulties are anticipated, and there is no particular hurry.

Nurses Called To

Paris From England

Flu Epidemic Has Reached Serious Proportions In France

Paris, France.—Influenza epidemic has become so serious that it has been found necessary to import nurses from England.

This procedure ordinarily would be attended with endless red tape, but much of this has been dispensed with in the present instance to facilitate treatment of cases in Paris hospitals. In some cases doctors have been able to get needed assistance by telephone within twelve hours from London.

One hospital authority estimated that about one-fifth of the Parisian population has been affected. Thus far most of the cases have been mild, but later reports show there has been an increase in pneumonia and bronchial symptoms following influenza. There has been a corresponding increase in the death rate.

Paying Visit To Japan

London, England.—The Duke of Gloucester will leave London at the end of March for Tokyo, to invest Emperor Hirohito, of Japan, with the Order of the Garter. Determination of the date of the duke's mission was stated to have been made possible "in view of the improvement in the king's health." The duke's party will arrive in Japan early in May.

New Experience For Italy

Rome.—Ice boats and skis may be necessary to replace Venetian gondolas if the weather in that Italian city does not moderate soon. Ice has crept up the canals and lagoons which serve Venice as streets and traffic there by means of gondolas has become most difficult. The temperature here has been as low as 12.5 Fahrenheit.

Married In California

Los Angeles, Calif.—Redmond T. Robin, Canadian financier and former premier of Manitoba, and Miss Ethel M. Leighton, of Los Angeles, were married at the Wilshire Congregational church here, February 5. More than 100 guests attended the ceremony which was extremely simple.

Increase In Jersey Cattle

Toronto.—At the annual meeting of the Canadian Jersey Cattle Club held here reports of registration and transfers showed a marked jump, the figures for 1928 being 34,079, compared with 15,480 in 1927. J. W. McGilver, Chilliwack, B.C., was elected a vice-president.

Alberta Keeps Own Police

Province Prefers Not To Make Change In System

Edmonton.—The Alberta Government will not accept the offer of the Dominion Government, that the Royal Canadian Mounted Police shall take over the policing of the province from the existing Alberta provincial police force.

This move is made evident by Premier Brownlee in the legislature, and he gave as his reason the same reason that the Federal Government gave when they refused to take over the R.C.M.P. from the province—that they intended to have their own statutes enforced by their own police.

Radio For Peace River

Premier Brownlee Outlines Year's Plans For North Country

Edmonton, Alta.—Short-wave radio stations to link up isolated points in Alberta's north, pending the carrying of telegraph communication to such points, an intensive search for water in areas where water is scarce; three survey parties to do aerial surveys, and a survey party to examine the pre-Cambrian shield for the northern part of the province, are among plans for the Peace River country this year, Premier Brownlee told the Alberta legislature.

FRANCE WILLING TO RENOUNCE PENSION RIGHTS

Paris.—A determined effort to insure the economic rehabilitation of Europe will be made when the international committee of experts on reparations begins its session here.

Statement that France would waive nearly \$5,000,000,000 in pension rights granted her by the Versailles treaty, where a conciliatory spirit will be shown to promote solution of the tremendous financial problem left by the world war. The treaty provided that Germany must pay the French pension bill, estimated to be 150,000,000,000 francs.

France, it was understood, would demand from Germany only restitution for damage done to French property and a sum equivalent to the French war debt to the United States and England.

The problem of the experts is to determine how much Germany can pay without being crippled, and how many years she should be allowed in which to pay it. The exact total of reparations never has been fixed and it has become obvious that Germany never could pay the staggering total which the Allied nations would like to get—about \$200,000,000,000.

Economic experts point out that Germany cannot be stabilized economically or industrially until she knows definitely how much she has to pay and can regulate finances accordingly.

These debts will be treated as a corollary by the European experts, whose governments, in effect, hold that their debts to the United States must be paid out of Germany's reparations. The United States has held consistently that the debts are a separate issue and are payable whether Germany provides sufficient reparations or not.

A third problem is the evacuation of the Rhineland. A plan is being considered to withdraw the troops and substitute an Allied commission of control in the Rhineland.

To Trap the World's Melodies!

Copenhagen.—The Greenland Administration Department reports that the country was enjoying an unusually mild winter. There was virtually no ice or snow, it was said, and the temperature was equivalent to approximately 48 degrees Fahrenheit.

FORMS FINANCIAL BUSINESS

C. Rice-Jones, who, until recently, was vice-president of United Grain Growers, has gone into the financial business in Western Canada, and has established his own company.

C. Rice-Jones and Co., Limited, to devote himself to this business he has resigned from the Vice-President and from the Board of United Grain Growers, thus severing a connection which has continued during this year. Premier Brownlee told the Alberta legislature.

Prior to 1917, he was President and General Manager of the Alberta Farmers' Co-operative Elevator Company. He helped to bring about the amalgamation of that company with the Grain Growers Grain Company to form United Grain Growers, limited, and since 1917 has been first vice-president of the amalgamated company.

He has many friends in all the Western provinces, and in addition well known in financial circles. Mr. Rice-Jones has established connections with financial houses in Toronto, Montreal and New York and is completing an organization of representatives in western towns and cities.

C. Rice-Jones and Co., Limited will be located in the Curry Block, Winnipeg, where a general investment service will be given on stocks and bonds, and in addition, the company will participate in the underwriting of new issues of securities.

Ontario Athlete Killed

'Plane Crashed During Solo Flight

Ottawa.—J. G. "Jerry" Ault, prominent athlete of this city, died as the result of injuries sustained at Camp Borden when the plane he was flying crashed. Mr. Ault, who was training for a pilot's certificate, was on a solo flight when his machine went into a tail spin.

A court of inquiry will be held at Camp Borden to determine the cause of the accident.

Succeeds Late Major Bell

Ottawa.—The appointment of R. A. C. Henry, director of the bureau of economics of the Canadian National Railways, to be deputy minister of railways, succeeding the late Major Graham A. Bell, has been announced by the prime minister. Mr. Henry takes up his departmental duties with the same salary as his predecessor—\$10,000 per annum.

Enjoying Mild Winter

Copenhagen.—The Greenland Administration Department reports that the country was enjoying an unusually mild winter. There was virtually no ice or snow, it was said, and the temperature was equivalent to approximately 48 degrees Fahrenheit.

Starving Crowds Raid Food Stores

Hunger-Stricken People In Bessarabia Attack Emergency Stores

Kishinev, Bessarabia.—Starving crowds of men, women and children stormed the emergency food relief stations here and smashed windows, wrecked furniture and seized the small remaining supply of food. To appease the hunger-stricken people, the government relief committee has promised additional food supplies.

The government of Bessarabia, which has been the centre of a desperate famine because of crop failure, held a special meeting of officials to discuss further measures for relieving the situation which has been greatly aggravated because of the non-arrival of food trains which are marooned in heavy snow between Bessarabia and Bucharest.

Injuries Proved Fatal

Workman For Paper Company Killed In Gear Machine

North Bay, Ont.—Despite the effort of a gang of men armed with axes and tools to cut through gear and shafts of a huge beheading machine to release him, and the chartering of a special train to rush him to hospital, William Ashcroft, an employee of the International Paper Company, died from shock and loss of blood.

Ashcroft's leg was caught in the gear of the big machine, and, owing to the nature of the mechanism, the gears could not be reversed. The men were immediately employed to cut the machine literally cut to pieces. A special train rushed him to hospital in Mattawa, where his right leg was amputated. The shock proved too severe and he died a few hours later.

Death Of Bremen Flyer

Baron Von Huenefeld Succumbs To Operation In Berlin Sanatorium

Berlin.—Baron Ehrenfried Gunther von Huenefeld, one of the three men who crashed the aeroplanes Bremen, which was the first to accomplish without a stop the westward crossing of the North Atlantic, died after an operation in a Berlin sanatorium.

Born in Koenigsberg, the son of a Prussian army officer, Von Huenefeld was never strong. When he offered himself for service during the great war he was rejected on the score of his weak physique. He persisted, however, and was finally accepted as a motorcycle dispatch carrier.

Gain In Ship Production

Great Britain and Ireland Lead Lists In Total Tonnage

New York.—Lloyd's register of shipping has announced that an increase of nearly 20 per cent in the world's production of merchant vessels was established in 1928.

Great Britain and Ireland, which lead the list in total tonnage, had the largest percentage and all maritime countries except the United States had an increase of 10 to 15 per cent in gross tonnage.

Merchant tonnage launched in the United States was only slightly more than half the 179,215 tons aggregate for 1927, but Great Britain and Ireland gained 15 per cent and all other countries combined 32 per cent.

AIR SURVEYS FOR LAST YEAR BREAK RECORD

Ottawa.—The pre-mission of aerial surveying for mapping Canada on account of great speed combined with a wealth of detailed information was the keynote of the report of the Aerial Surveys Commission presented by B. W. Waugh, D.L.S., to the annual convention of Dominion Land Surveyors. Although aerial surveys were inaugurated in Canada only seven years ago, they are rapidly becoming a most popular mode of mapping was the statement of the committee.

During last season, which was a record for Canadian operations, 66,143 square miles of territory were photographed by vertical and oblique photography. In Nova Scotia 2,870 square miles were photographed. In New Brunswick, 828; Quebec, 12,350; Ontario, 17,099; Manitoba, 1,635; Saskatchewan, 14,500; Alberta, 4,840, and British Columbia, 6,064. Altogether, 109,127 photographs were taken, said Mr. Waugh.

TOWNSITE PLANS FOR CHURCHILL ARE DISCUSSED

Winnipeg, Man.—Townsite plans for the Port of Churchill on Hudson Bay, it is understood, were considered when Col. A. E. Doherty, D.S.O., chief engineer of the department of railways and canals, Ottawa, met Hon. G. D. McNeill, general secretary and minister of mines and natural resources, here.

Colonel Doherty arrived on what he said was a rush trip to the city and shortly afterwards was joined at the Port Garry Hotel by Mr. McNeill. Neither Colonel Doherty nor Mr. McNeill would state what their purpose was, but it was authoritatively stated that the subject of their discussion was the townsite at Manitoba's seaport.

It is understood that the question of the port's townsite has been under consideration for some time. Winnipeg for some considerable time. About the last official pronouncement on the subject was made by Mr. Graham Bell, the late deputy minister of railways, in August, 1927. At that time he said, "I wish to warn all prospective purchasers that there is no land or town lots for sale in the vicinity of the proposed harbor site."

To Protect Gold Reserve

Bank Of England Raises Rate One Per Cent

London.—The Bank of England raised the bank rate 1 per cent, lifting it to 5½ per cent. The 4½ per cent. level at which it had rested since April 21, 1927.

The necessity for some measure to protect the bank's gold reserve from increasing demands for shipment to the United States has long been recognized in the money market, but it had been hoped that a working balance of gold would be maintained in the situation here and that in the U.S. would have devised some measure of assistance before this.

The net output of gold from the Bank of England in one week was more than £3,000,000, reducing the bank's stock of gold to £10,000,000, and the higher rate was imposed in an endeavor to raise the sterling rate of exchange and to check the outflow of gold.

Autos Take Heavy Toll

Vancouver, B.C.—Thirty persons lost their lives in automobile accidents in Vancouver during 1928, and 723 others were injured in a total of 10,529 accidents reported, according to police statistics just published. Automobile accidents for the entire province of British Columbia during the year numbered 11,559, and 12,700 in 1927, and an average of three persons were killed for each 1,000 automobiles operated.

Quiver Killed As Asbestos

Winnipeg, Man.—An asbestosis victim at approximately \$60,000, who had been in total command of city police and provincial enforcement officers in B.C. Boniface. The quiver was killed as asbestos, the bill of lading showing that the shipment had been made by the Canadian Asbestos Company, Ltd. of Cote St. Paul, Montreal, to the Winnipeg Pooling Company.

Figures Show England Going Dry

London, England.—Of its own accord England is going dry. At least if the consumption of spirits declines in the future as it has in the past 28 years. In 1900, the consumption of spirits in England was 22,250,022 gallons. Last year's figure is but 10,412,921. Other means of recreation, such as the movies, radio, etc., are given as the reason for this decrease.

Liquor Profits For Charity

Quebec.—In the legislative assembly here, Athanasie David, provincial secretary, announced that the sum of one million dollars would be taken from the profits of the Quebec liquor commission next year and turned over to the charities bureau in further aid of charitable institutions.

Will Build New Cruisers

Washington.—An increase in the United States navy by 15 cruisers and an aeroplane carrier has been voted Tuesday by the senate, 68 to 12, with the stipulation that the ships be laid down before Oct. 1, 1931.

Zeppelin Plans New Trip

Friedrichshafen, Germany.—The dirigible Graf Zeppelin is to start the end of February on a round trip to Egypt and Palestine.

CHAMPION CHATTER

VOL. 2

Thursday, Feb. 14, 1929.

No. 1

Published in the interests of the People of Champion and Farmers of this vicinity.
GEO. L. DEPUÉ, Editor.

EDITORIAL

Down in New York they have arrested the "Polite Bandit" after shooting him through the knee. If you're going to be a bandit, you might just as well be hard-boiled about it.

Iris Fisher purchased a new Mc-Dee pump engine 10 days ago (haven't you noticed the improvement in the water?) and was in town today to find out when it would be necessary to put in another gallon of gas.

Teaching Bertram on Valentine morn he brought his heart. And laid it at her door. But she had ordered liver so. She deals with him no more.

Mr. and Mrs. W. R.

Mollie left on Monday for a short trip to the coast.

After seeing a few trucks we are inclined to wonder why on earth they call it a "Turkish bath."

Our special tools for Mc-Dee tractors along with a large stock of repair parts have arrived, so owners of these increasing popular tractors are assured of better service than ever before.

Should a man propose to a girl on his knee? Yes, either that or she should get off.

Howard Payne a resident of Champion seven or eight years ago is in town renewing old acquaintances.

Different

Brown: "I hear Jones is taking the rest of the world go by."

Green: "Retired eh?"

Brown: "No, bought a new car."

Some wise scientist has discovered that a trip in the joy of getting back. We maintain that his finish is getting to be that also. But remember that Mc-Dee service is no accident, we make it.

Leo Groves says: "We spend money when we impress others, who spend money to impress us."

Mr. and Mrs. A. S. McDougall were Calgary visitors this week.

The most fun in leaving Champion for a trip is the joy of getting back. About the time that we thought saxophones were going out, the movies began to talk.

"Good Equipment Makes a Good Farmer Better."

LOCAL AND GENERAL

Mrs. Geo. Taylor spent the week end in Calgary.

P. M. Patterson will be home for municipal nominations on Saturday.

Mr. and Mrs. R. C. Crane of Calgary visited in town during the week.

Miss Moyle and Miss Fleming were Calgary visitors for the week end.

Mrs. Alexander received the sad news from Toronto of the death of his sister.

"The Old Grey Horse," another Our Gang Comedy at the theatre this week.

A big time show coming Sat. night, Feb. 23rd. Beck and Walkers, colored minstrels.

Mrs. A. Stenson and daughter of Blackfalds are visiting at G. A. Manhard's.

"Masks of the Devil" with John Gilbert and an Our Gang Comedy at the theatre this week.

The Sletto brothers and F. Gottenburg returned from Spokane, their father being a little improved.

A bang up five piece colored orchestra will play for the dance after their show, Saturday night, Feb. 23rd.

"Carry Me Back to Old Virginia" sung by eight colored minstrels. Oh my what a show. Saturday night, Feb. 23.

Notice to ratepayers—That there will be an annual meeting at the Hiawatha school on Feb. 19th, at 2 o'clock.

Lost—Between Ford Garage and D. Watkins' residence, a motor car rug. Finder please notify The Chronicle.

Howard Payne, who will be remembered as being in charge of the National elevator here in 1921, was a visitor in town this week and was greeted by many old friends.

Card of Thanks

We wish to thank the many friends for their kindness during our sad bereavement. Mr. and Mrs. F. M. Watts.

Starvation Period
For Chicks

(Experimental Farms Note)

Experimental work carried on at the Poultry Division, Experimental Farm, Ottawa to determine the amount of time that should elapse

between the completion of the hatch and the giving of first feed, has shown interesting results.

An experiment carried on during 1928 gave rather indefinite results but showed no greater mortality on feeding after twenty-four or thirty-six hour periods than when the birds were starved for a longer time.

A continuation of this experiment during 1929 showed the greatest gain in weight up to three weeks of age to be made by chicks fed twenty-four hours after the completion of the hatch. The weight gains decreased gradually until forty-eight hours after which point decrease in weight gains was more marked. Mortality was equal for all lots excepting the last fed in which lot there was a slight increase.

This experiment was again continued during 1929. In this case the greatest gain was made by the birds fed sixty hours after hatching followed by those fed seventy-two, twenty-four, forty and ninety-six hours after hatching respectively. Mortality was equal and greatest for the birds fed forty and seventy-two hours after hatching with those fed sixty and ninety-six hours next in order. There was no mortality amongst these birds fed twenty-four hours after hatching.

In no case did the birds starved until ninety-six hours after hatching compare favorably with the earlier fed lots. The results obtained to date would seem to indicate that chicks may be fed as early as twenty-four hours after hatching with no harmful results either upon weight gains or mortality. It is just possible, however, that there is a happy medium in the neighborhood of from thirty-six to forty-eight hours after hatching. These results seem to indicate that, the fact that chicks will go as long as one hundred hours or more before receiving their first feed is to be looked upon more as a fortunate circumstance which permits of shipping over great distances rather than the best method of husbandry.

Lutheran Church Services

The Lutheran church still preaches the Gospel of Christ and Him crucified. Lutheran services will be held, the Lord willing, at the Lutheran parsonage on Sunday, March 3rd at 10:30 a.m. Sunday School after services.

You are heartily invited to attend and to bring your friends.

REV. F. A. DUENNING, Pastor.
